

DONOR ADVISED FUNDS

CAF America can expedite charitable donations to

1.8 million

organizations

110

countries around
the globe

Donor Advised Funds (DAFs) have become the most sought-after way for donors to manage and achieve their philanthropic goals. Establishing a DAF at CAF America is an efficient and cost-effective way to conduct both domestic and international grantmaking through a single fund, and eliminates the considerable time and expense required to establish and maintain a private foundation as well as obtain tax-exempt status from the IRS.

By establishing a DAF at CAF America, donors are able to not only take advantage of our extensive international grantmaking experience and expertise, but enjoy fund management services, including activity statements, online account access, and a dedicated Fund Manager. Through our Advisory Services, CAF America can identify international organizations that are aligned with a donor's funding goals.

GIVE WITH CONFIDENCE

CAF America conducts industry-leading due diligence reviews of international and domestic organizations to ensure that all grants are made to legitimate charitable programs, funds are used for their intended purpose, and are in full compliance with all U.S. laws as well as local government regulations. This enables donors to mitigate the risk, reputational exposure, and administrative burden associated with international grantmaking, while allowing them to make impactful, cost-effective, and tax-advantaged gifts. In addition, with CAF America's validation and due diligence protocols, approved organizations can remain eligible for up to three years.
