CAF America can expedite charitable donations to

1.8 million

organizations

110

countries around
the globe

Establishing a Donor Advised Fund (DAF) at CAF America is an efficient and cost-effective way to conduct both domestic and international philanthropy through a single fund, eliminating the considerable time and expense required to establish and maintain a Private Foundation.

For donors wishing to grow the impact of their contributions over time, CAF America offers the option of establishing an Invested Donor Advised Fund. With an Invested DAF, you may recommend investment allocations based on your appetite for risk and goals for growth. Invested DAFs at CAF America enable donors to receive immediate tax benefits while providing the opportunity to grow their giving over time in the interests of contributing even more to their preferred organizations in the future.

GIVE WITH CONFIDENCE

CAF America's industry-leading protocols for validating international and domestic organizations ensure that all of our grants are made to legitimate charitable programs, that funds are used for their intended purposes, and that our grantees are in full compliance with all U.S. and local laws and regulations. We take on all risk, reputational exposure and administrative burden associated with international grantmaking, while allowing our donors to make impactful, cost-effective and tax-advantaged gifts with full confidence.
